The Finest Work.
In the window of Nicol's art store, on Market street, is displayed a really marvelous piece of work on the type writer. It was done on a Williams machine, perhaps the most perfect yet devised, and it included designs, diagrams and pictures which make one wonder what cannot finally be done with that machine. It has attracted general attention and won for the Williams machines a reputation for exactness of alignment, and for other special features of typewriter work, which no other machine has yet enjoyed in this locality.

In Olden Times.
People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, we find that people will not buy any other laxative, which act for a time, but finally injure the system.

QUICK In effect, heals and leaves no scar. Burning, scaly skin eruptions quickly cured by DeWitt's Witch Hazel Ointment. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. Logan & Co., Wheeling, W. Va., B. F. Peabody, Benwood, and Bowles & Co., Bridgeport, O.

THE ENGINEERS.

Annual Meeting of the State Society of Engineers.

THE SESSIONS HAVE ENDED

And the Meeting Adjourned—New Officers Elected for the ensuing year—Mr. White Re-Elected President—The Midsummer Meeting to be held at Point Pleasant—Annual Meeting at Charleston—Excursions and Banquet.

The final session of the first annual meeting of the West Virginia Society of Civil Engineers and Surveyors, was held at the court house yesterday. The session continued from 10 a. m. to shortly after the noon hour. The attendance of delegates was larger than on the preceding day. In addition to the discussion on papers, officers for the ensuing year were elected.

"Monuments of Surveyors, their Location and Preservation" was the subject of an able paper by Mr. C. J. Krebs, of Elk River. The paper was read by another member as Mr. Krebs found it impossible to be present. The paper was of intense interest and ably prepared. The discussion that followed its reading was general and spirited.

The election of officers was the next order of business. There was a general desire that Mr. A. L. White, of this city, be continued in office. Mr. Howard, of Point Pleasant, moved a suspension of the rules and the election of the presiding officer unanimously. Mr. White attempted to "get out of the hole," but only got mixed when another motion that the secretary, Mr. William Steenberger, of Point Pleasant, also be re-elected unanimously, was put. Finally the double motion carrying the re-election of both gentlemen was put and carried with a hurrah. For vice president, Mr. W. H. Howard, of Point Pleasant, was named and elected without dissent. Mr. E. B. Franzheim, of Wheeling, was elected second vice president and J. H. Burley, of Moundsville, third vice president.

Mr. Howard told eloquently of the advantages of Point Pleasant as a place of meeting for the organization. His oratory was not without effect, as the motion to hold the midsummer meeting of the society in Point Pleasant, prevailed. It was decided to hold the next annual meeting at Charleston. The executive committee reported favorably the following new members: E. L. Benton, Sistersville; James H. Giesey, Wheeling; E. L. Willes, Benwood; Herman L. Arbenz, associate member, Wheeling; James Gilchrist, Wheeling; M. F. Giesey, Wheeling; Russell L. Morgan, Morgantown.

In the afternoon the society was taken on a trip over the line of the Wheeling Bridge and Terminal railway, which was greatly enjoyed by the visitors. Superintendent Tausig, of the company, had charge of the tour. At the conclusion of the trip on the Terminal the visitors went out to Wheeling park on the Wheeling & Elm Grove road, escorted by General Manager H. E. Welsher, where several hours were pleasantly spent in bowling. The concluding event of the meeting was an informal banquet at the Fort Henry club last night.

At the evening session of the engineers at the Fort Henry Club, a resolution was introduced, and passed, commending the efforts of the Ohio Valley Improvement Association for slack-water on the Ohio river between Pittsburgh and Marietta and advocating a free Monongahela river. It was ordered that copies of the resolution be sent to the six West Virginia representatives in Congress with the request that they give the movement their support.

A NEW INDUSTRY.

A Box Factory to be Put in Operation Here Very Shortly.

Another new industry is to be started in East Wheeling. Although it is to be started on a modest scale, the field is good and it will no doubt grow rapidly. It is a box factory with all of the latest and best machinery for the manufacture of wooden boxes of every description. A feature will be a three-color printing press for work on wood. The new concern will occupy the old chair factory building, adjoining the Home Conservatory Company's building, and will employ at the start some twenty-five men. It will be in operation the tenth of the coming month. It will be known as the Acme Box Company. The manager is Mr. George B. Dryden, late of Cleveland, who has had considerable experience. He has already closed contracts with a number of local factories that use packing boxes.

More Pulls by the Police.

Last evening the police raided the crap den run by Harvey Roy, on the upper Market square, and arrested him and three other men. The poker room of John Shober, on South Market street, was also raided and Shober and three other men were captured. Lon Lenehan's place, on Market street, near Sixteenth, was also pulled, and he and three men put up for their appearance this morning.
